K1 MEMORANDUM FOR: [ ] AC/IHC

SUBJECT : Coordination on DCI Reply to [ ] Letter  
of 24 July 1974

1. Concur in your 29 July 1974 draft.

2. While we have no specific objection, I do wonder about the need to bring the complex problem of computer security into the question at this time. It appears to me that computer security is exactly the same problem whether we build a single DIA/NPIC system or construct separate but compatible systems. Perhaps [ ] has a specific problem in mind that has not occurred to us. If not, it doesn't appear helpful to bring it up now at this level.
